International application No.

PCT/JP2004/009747

Box No. 1

Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  
☐ This opinion has been established on the basis of a translation from the original language into the following language \_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (under Rule 12.3 and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
  - a. type of material  
☐ a sequence listing  
☐ table(s) related to the sequence listing
  - b. format of material  
☐ in written format  
☐ in computer readable form
  - c. time of filing/furnishing  
☐ contained in the international application as filed.  
☐ filed together with the international application in computer readable form.  
☐ furnished subsequently to this Authority for the purposes of search.
3. ☐ In addition, in the case that more than one version or copy of a sequence, listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

Document 2: JP 2003-345114 A (Ricoh Co., Ltd.), 03 December 2003, full text, Figs. 1-6

The inventions of claims 1-8 are not disclosed in any of the documents cited in the ISR and possess novelty and involve an inventive step. In particular, the point about forming a plurality of protrusions arranged at intervals in the circumferential direction and the axial direction, and disposing two adjacent feed parts in the axial direction so that the rotational-direction downstream end part of one feed part and the rotational-direction upstream end part of the other feed part are adjacent in the axial direction is not disclosed in any of the documents, and this point is not obvious to a person skilled in the art.
